XINYU WEI

Brussels, Belgium | weixinyu25@gmail.com | xinyuwei25.github.io

Applied microeconomist completing a PhD at ECARES, Université libre de Bruxelles, supervised by Prof. Bram De Rock (expected summer 2027). Studies how households absorb income, employment, health and care shocks, and how public policy and families protect them, using household panels from the UK, wider Europe and China.

EDUCATION

- **PhD in Economics and Management,** ECARES, Université libre de Bruxelles — 2023 – expected 2027
- **Research Master in Economics and Statistics,** ECARES, Université libre de Bruxelles — 2021 – 2023
- **MPhil in Economics,** The Chinese University of Hong Kong — 2019 – 2021
- **MA in Applied Economics,** Georgetown University — 2015 – 2016
- **BSc in Economics,** Xi'an Jiaotong University — 2011 – 2015

RESEARCH

When Care Supply Becomes Care Demand: Partner-Care Exit and the Destination of Outside Support (2026)

- When caregivers in older couples develop their own limitations, they become 20 percentage points more likely to stop partner care, and much of the new outside help goes to them rather than to the original recipient (SHARE).

Hours You Cannot Choose: The Welfare Cost of Hours Constraints (2026)

- Using Dutch and British household panels, shows that hours constraints are common, concentrated among higher earners and as costly for well-being as income poverty; bounds the welfare loss at 6–32% of income for the median overemployed single.

Income Risk Exposure and Consumption Smoothing in China (2026)

- Low-income households face about 40% larger transitory income shocks, yet show no clear evidence of weaker consumption smoothing (CFPS). Presented at Mannheim (2026) and ECARES (2026).

Temporary Unemployment and Household Outcomes in Belgium (joint, HAIOPOLICY project; work in progress)

- An event-study evaluation of whether Belgium's COVID-19 temporary-unemployment benefits protected household income and employment (EU-SILC/BE-SILC).

A Comment on "Kin Networks and Institutional Development" (with J. Degroot, P. E. Gobbi and A. Ramos), I4R Discussion Paper No. 126, 2024 | *Paper*

Reports on the US Economy and Federal Reserve Policy (in Chinese), Shenzhen Finance Institute, 2017–2019 | *Selected report*

PROFESSIONAL EXPERIENCE

ECARES, Université libre de Bruxelles – Doctoral Researcher — Sep 2023 – Present

- Built the longitudinal EU-SILC/BE-SILC panels and analysis pipeline for the HAIOPOLICY Belgian income-distribution project, working with a postdoctoral researcher and senior project members.

The Chinese University of Hong Kong – Teaching Assistant (part-time) — Aug 2019 – Jul 2021

- Led problem-solving tutorials and graded assignments for undergraduate macroeconomics courses.

Shenzhen Finance Institute, CUHK-Shenzhen – Teaching and Research Assistant — Jul 2017 – Jul 2019

- Lead-authored public reports on the US economy; analysed Chinese local-government fiscal data; ran replication checks on faculty papers.
- Taught weekly Stata labs and led tutorials for master's-level courses in monetary economics, international finance, econometrics, time series and machine learning.

Harvard University, China Gazetteer Project – Visiting Research Assistant — Sep 2016 – Jun 2017

- Coordinated daily data delivery for a five-person team harmonising county-level data from Chinese gazetteers; ran data-quality checks.

SKILLS AND HONOURS

- **Software:** Stata, R (advanced); Python, MATLAB (intermediate); LaTeX; Excel.
- **Languages:** Mandarin (native), English (fluent).
- **Honours:** Doctoral Scholarship, ECARES (2023–present); Postgraduate Studentship, CUHK (2019–2021); Third Prize (Bronze Medal), Chinese Mathematical Olympiad, National Final (2011); Honourable Mention, Interdisciplinary Contest in Modeling (2013).
